

NETWORK

The Virtual Network for Professional Services

INVESTOR PROGRAM

What is the Investor Program?

Network Q provides Investors a unique opportunity to invest in Goodwill Assets.

The Network Q Investor Program enables anyone to earn a passive income from accounting services.

Investors are invited to purchase Units in our equity fund which owns Goodwill Assets (the Client Base).

15%

Cash Distribution
per annum

10%

Capital Growth
per annum

100%

Passive Income

Who is the Investor Program for?

All invitees who are seeking stable and high return passive income.

How can I earn like an Accountant passively?

Accounting practices typically have a 20-25% profit margin based on collected fees and grow at 5-10% p.a (new clients or services).

By purchasing Goodwill Assets, Network Q will manage your investment end-to-end inclusive of providing 100% of the services to these clients via the HQ Client platform. In return you receive guaranteed 15% of collected fees in perpetuity.

It's quite simple. We service the clients and send out invoices. When client pay the invoices 15% of the payment will be immediately sent to the Investor's account.

This income stream can then be on-sold for future capital gains should the investor choose to.

Benefits

Marketable Asset

This income stream also doubles as an invaluable, tradeable and marketable asset from the accumulated trailing fees.

Cost

Currently there are no costs to join, however this is subject to change in the future*.

Resources

Access to a wealth of knowledge and experienced Professionals from the platform to service all clients.

Flexibility

The Investor Program is designed with flexibility at its core. Set your passive income on autopilot or cash out whenever you choose.

Risks

The same business and investment risks as any typical Accountancy practices or businesses. Most typically:

Losing clients - naturally Accountants expect an increase in Clients numbers and Services every year. However there is not an absolute zero chance of losing a number of Clients for many variety of reasons.

Change of legislation and Professional environment - although it is very rare, some changes may have an adverse effect on income and services in the industry.

Disruption to technology or unforeseen disruption to business operation - again, although very rare these risks exist and need to be constantly managed and contingency plans in place.

How do I invest?

Investors purchase Units in Sol-Dex, a Self-Managed Private Equity Fund.

Sol-Dex Market
(Private Equity Fund)

Investor holds Units in PE Fund

Investors may also trade or switch between projects within our growing portfolio.

GOODWILL ASSETS
(the Client Base)

provides 100% of servicing
